

UNIVERSITY OF ASIA PACIFIC

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Course Name: Software Engineering Lab

Course Code: CSE 314

Date of Submission: 22-05-2026

Submitted by:

Rokonur Zaman Rokon – 23101194

System Designer / Software Architect & QA Engineer

Sunandan Das – 23101218

Software Developer (Programmer)

Md. Sakif Hossain – 23101219

Project Manager

Md Minhazul Islam – 23101207

System Analyst / Business Analyst

Submitted to:

Change Log Report
Athletix
(Student Intelligence for Athletic Fitness & Health)

Document Version: 1.0

Date: May 2026

Prepared By: Sunandan Das

1. Introduction

This document records all requirement changes made throughout the ATHLETIX System development lifecycle. The changes were introduced based on feature improvements, development requirements, usability enhancement, and sprint planning decisions. Several modules such as Coaching History, Club Management, Dashboard Navigation, and Admin Functionalities were updated during the development process to improve overall system performance and user experience.

2. Requirement Change Summary

Change ID	Requirement / Feature	Original Requirement	Updated Requirement	Reason for Change	Sprint / Date	Approved By
CL-01	User Navigation	After login user goes to Home Page	After login user directly goes to Dashboard	Improved usability and faster access	Sprint 4	Helaly Maam
CL-02	Admin Complaint System	Centralized complaint system for admin	Complaint system removed	Feature complexity and low priority	Sprint 5	Helaly Maam
CL-03	Coaching History	No coaching history feature	Added coaching history tracking	Performance monitoring improvement	Sprint 6	Helaly Maam
CL-04	Club Management	No club management module	Added club creation and member management	System enhancement and feature expansion	Sprint 7	Helaly Maam

3. Added Requirements

Requirement ID	Description	Reason for Addition	Sprint / Date
AR-01	Coaching History Management	To maintain coach activity and athlete performance records	Sprint 6
AR-02	Club Management System	To support club creation, events, and member handling	Sprint 7
AR-03	Dashboard Direct Access	To reduce unnecessary navigation after login	Sprint 4

4. Removed Requirements

Requirement ID	Removed Feature	Reason for Removal	Sprint / Date
RR-01	Centralized Admin Complaint System	Increased complexity and low implementation priority	Sprint 5
RR-02	Home Page After Login	Replaced with direct dashboard navigation for efficiency	Sprint 4

5. Modified Requirements

Requirement ID	Previous Version	Updated Version	Impact
MR-01	Login redirects users to Home Page	Login redirects users directly to Dashboard	Improved user experience
MR-02	Basic coach module	Added Coaching History Management	Database and dashboard modification required
MR-03	Athlete and Coach modules only	Added complete Club Management System	Required additional database models and UI redesign
MR-04	Admin complaint handling module included	Complaint module removed	Simplified admin operations

6. Impact Analysis

The requirement changes affected several parts of the ATHLETIX System development process:

- **System Design:** Database schema, dashboards, and module relationships were updated.
- **Development Effort:** Additional coding and redesign were required for coaching history and club management.
- **Testing:** New unit tests and Selenium tests were added for updated modules.
- **Timeline:** Sprint schedules were adjusted for implementing new features.
- **Team Responsibilities:** Additional development tasks were assigned during Sprint 6 and Sprint 7.

7. Conclusion

The requirement changes improved the overall functionality, usability, and scalability of the ATHLETIX System. Features such as Coaching History and Club Management enhanced the system capabilities, while direct dashboard navigation improved user experience. Removing unnecessary functionalities simplified the system structure and helped maintain development efficiency. The final system successfully reflects the updated project requirements and user needs.
